Section 74-702 of the Cumberland County Zoning Ordinance provides guidelines for conditional use permit applications. Please address the following standards which will be reviewed by the staff in analysis of your request. If you need assistance filling out these items, staff is available.

Provide a written statement demonstrating that:

1. The establishment, maintenance or operation of the CUP will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare;
2. The CUP will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood;
3. The establishment of the CUP will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district;
4. The exterior architectural appeal and functional plan of any proposed structure will not be so at variance with either the exterior architectural appeal and functional plan of the structures already constructed or in the course of construction in the immediate neighborhood or the character of the applicable district as to cause a substantial depreciation in the property values within the neighborhood;
5. Adequate utilities, access roads, drainage, and necessary facilities are provided;
6. Ingress and egress to property and structures on the property with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access of fire or catastrophe are adequately provided for;
7. Off-street parking and loading areas are provided as required;
8. Above economic considerations, noise, glare and odor effects of the special exception are adequately provided for properties generally in the district;
9. Refuse and service areas, with particular reference to the items in #s 1. and 2. above are adequately provided for;
10. Appropriate screening and buffering with reference to type, dimensions and character of the use are adequately provided for;
11. Any signs and exterior lighting are compatible and in harmony with properties in the district with reference to aesthetics, glare, traffic safety and economic effect;
12. Required building setbacks and other open spaces are adequately provided for;

13. The proposed use is compatible with adjacent properties and other property in the zoning district;
14. An adequate supply of light and air to adjacent properties is adequately provided for; and
15. The CUP shall, in all other respects, conform to the applicable regulations of the zoning district in which it is located, except as such regulations may, in each instance, be modified by the Board of Supervisors.

Describe your request in detail and include any relevant information such as the number of persons involved in the use, operating hours, or any unique features of the proposed use.

If any improvements are being proposed, briefly state whether new structures are to be constructed, existing structures are to be used or additions are to be made to existing structures. *If available, provide dimensions of any structures that will be used for this CUP.*

The property is undeveloped so new structures will be constructed consistent with DEQ permits and final site plan approval from the County. These may include without limitation, a scale house, offices, maintenance facility, gas conversion/energy plant, and hydroponic/green house structures. See attached statement.
